The MAILING DATE of this communication app Period for Reply	ears on the cover sheet with the c	orrespondence address				
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. In view of an updated search and the new rejections set forth below, the prior indication of allowability of claims 10, 18 and 19 is withdrawn.

Claim Rejections - 35 USC § 112

- The following is a quotation of the second paragraph of 35 U.S.C. 112:
 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 3. Claims 19, 23, 25, 26 and 27-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 19 recites the limitation "the storage device" in line 5. There is insufficient antecedent basis for this limitation in the claim.

Claim 23 recites the limitation "is configured to permit passage of an electrical conductor". The term "is configured" is a relative term which renders the claim indefinite. The term is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

Claim 25 recites the limitation "the article is cargo". The term "cargo" is a relative term which renders the claim indefinite. The term is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

Application/Control Number: 10/041,654 Page 3

Art Unit: 3727

Claim 26 recites the limitation "the support member is adapted to be coupled to a rear seat in the vehicle" is indefinite since it is unclear what structure or structures the support member could be to meet this function.

Claim 27 recites the limitation "at least one support column having a first end configured for coupling to an interior overhead portion of the vehicle and a second end configured for coupling to a floor portion of the vehicle" is indefinite since it is unclear what structure or structures the support column ends could be to meet this function.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 5. Claims 1-8, 13, 14, 19-23, 25-34 and 36-38 are rejected under 35 U.S.C. 102(b) as being anticipated by Ferman WO 00/76809 A1.

Ferman teaches a removable vehicle mounted load carrier comprising support members 5, 6, with first and second ends with quick release connectors 18, 19, 21, 22, a cargo management devices 11, an adjustment device 12, 13, and an adjustment device 25, 26, (see also figures 3 and 4).

Claim Rejections - 35 USC § 103

- 6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and

the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

7. Claims 9-12 and 35 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ferman WO 00/76809 A1 in view of Goodness 5,842,615.

Ferman teaches the claimed invention except that the cargo management device is in the form of a bicycle carrier instead of a tray with a ledge and a handle. Goodness teaches a similar vehicle mounted load carrier in which the support member 44 is taught as being adaptable to retain a ski rack (see figure 1), a bicycle carrier (see figures 18-20), and a tray 98 with a ledge 120 and a handle 112 (see figures 23-25). It would have been obvious to one of ordinary skill in the art to modify the support member of Ferman to accept various forms of cargo carriers in the manner as taught by Goodness in order to allow the device of Ferman to be used to carry a wider range of cargo.

Response to Arguments

8. Applicant's arguments with respect to claims 1-14, 19-23, and 25-38 have been considered but are most in view of the new ground(s) of rejection.

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen K. Cronin whose telephone number is 571-272-4536. The examiner can normally be reached on M-F 8:00am-5:30pm.

Art Unit: 3727

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lee W. Young can be reached on 571-272-4549. The fax phone number for the organization where this application or proceeding is assigned is 571-272-3700.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
